

The story of the *Dead Sea Scrolls*

As the Cincinnati Museum Center prepares to host a major exhibit, hear the story behind this historic discovery from eminent Dead Sea Scrolls scholar **John Kampen**

The study of the Dead Sea Scrolls has provided new insights into our understanding of Christian origins and the development of Rabbinic Judaism. This lecture will give particular attention to those texts that became widely available only after 1991, including those that will be part of the exhibit opening in Cincinnati in November. John Kampen is professor in MTSO's Dunn Chair in Biblical Interpretation and author of *Wisdom Literature*, one of the Eerdmans Commentaries on the Dead Sea Scrolls.
